

AI Overview Builder WP Plugin

About The Plugin

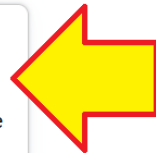

AI OverviewBuilder is our WordPress plugin that allows your website to have an AI Overview section above your WP Post Content. It is mimicking the AI Overview section that often show up in Google Search Result.

SpaceX's Starship Spacecraft Explodes In Texas

◆ AI Overview

SpaceX's Starship blew up again during a static fire test on June 19, 2025, at their Texas facility. This happened right before its tenth test flight. The big boss, Elon, blamed it on a faulty nitrogen tank in the payload area. Thankfully, nobody got hurt, but there was a massive explosion with fire and flying bits.

On June 19, 2025, SpaceX's Starship spacecraft experienced a catastrophic explosion during a static fire test at the company's Starbase facility in Brownsville, Texas. The incident occurred around 11

Installation Guide

- Navigate to Plugins menu -> Add Plugins
- Click the Upload plugin button
- Browse the plugin file from your storage, then click the Install Now button

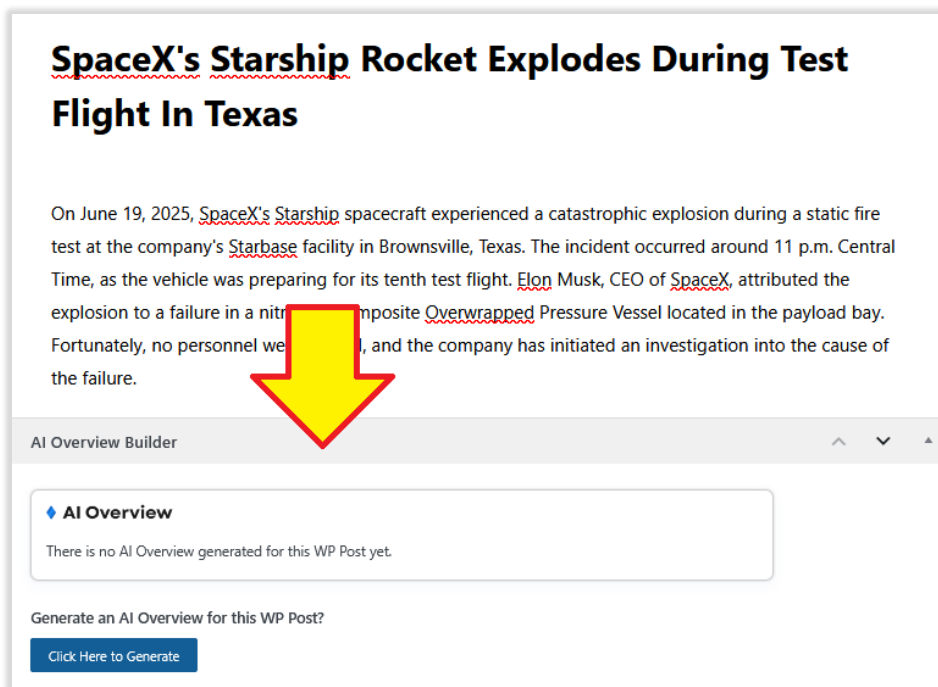

After the plugin is installed, remember to activate it.

Setting Up The AI Overview

For An Existing WP Post:

Navigate to Posts menu -> All Posts. After that click Edit on one of WP Posts.

Below the WordPress Post Editor, you will see this Metabox:

Click the Generate button to let the plugin generates an AI Overview for your post content.

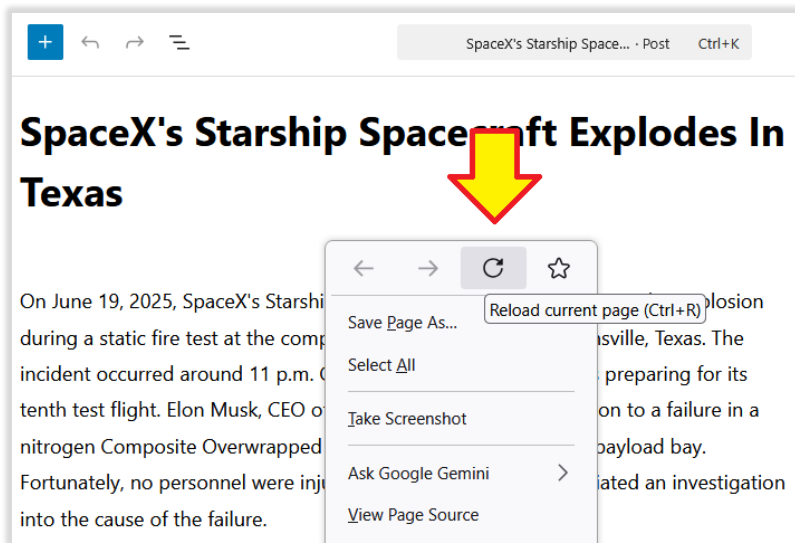

After that remember to Save your post.

When you generate a new AI Overview or removing existing AI Overview, always remember to update or save your post.

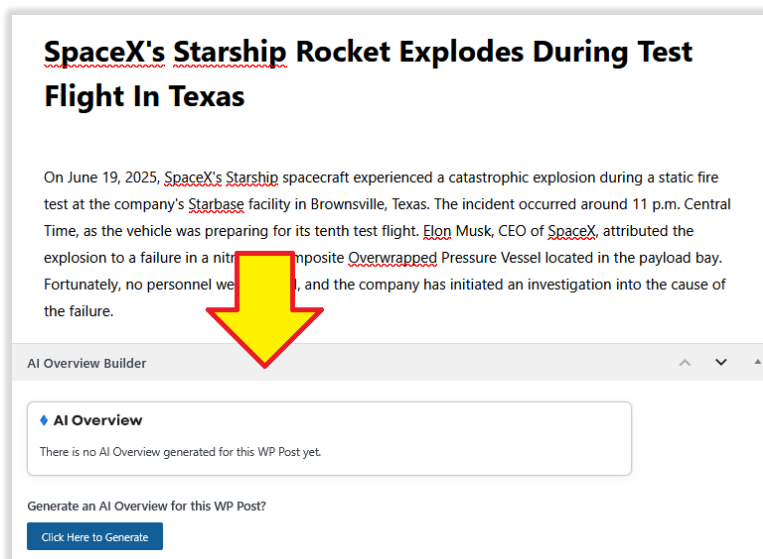

For A Brand New WP Post:

When you are adding a New Post, the Metabox for AI OverviewBuilder will only work after you Publish the content.

So make sure to Publish the post, and refresh/reload your current screen:

Once the screen is refreshed or reloaded, now the Generate button will work:

When you generate a new AI Overview or removing existing AI Overview, always remember to update or save your post.
