Theme User Guide

Homepage Setting

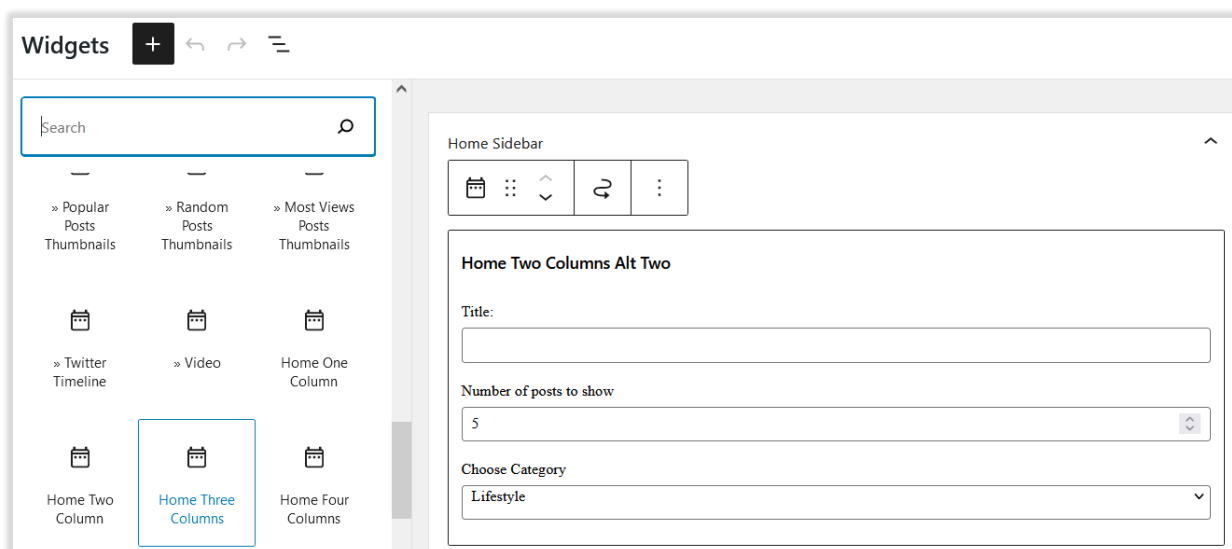

1.) Create a new page and select “Home template” as its template:

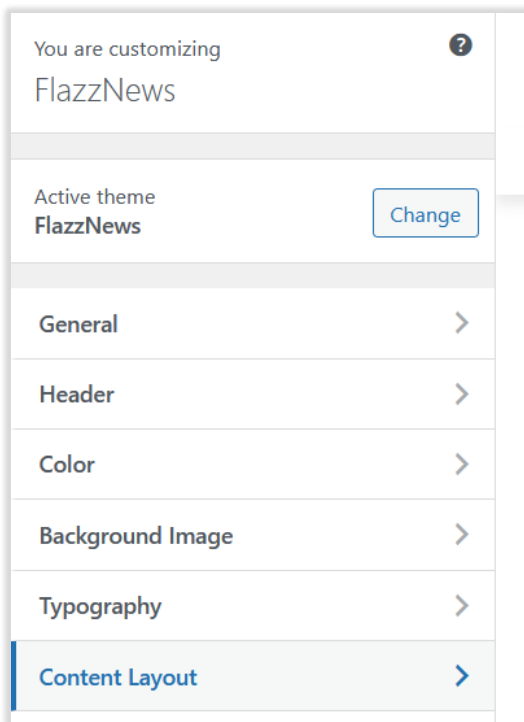

2.) Navigate to Settings -> Reading, and use the page as Homepage static page.

3.) Go to Appearance -> Widgets, and use any of the “home widgets” to the Home Sidebar:

4.) To set Featured Post on Homepage, visit Appearance -> Customize, then click the Content Layout option -> Featured.

Cheers,

Leo (BCBiz)
